

Cent for Future and Golden Euro competition winners

2008-04-21

POLISH MARKET today organizes a gala of the Cent for Future competition at the Royal Castle in Warsaw. The event is held for the fourth time. It is organised in co-operation with the Chairmen of all Polish provinces. An honorary patronage over the competition is extended by Minister of the Economy Waldemar Pawlak and Minister for Regional Development Elżbieta Bieńkowska.

Cent for the Future has been organized since 2005. Its idea is for province chairmen to pinpoint those new companies that hold the most promise for rapid growth and products or services which in the province chairmen's opinion stand the best chance of becoming market hits. The two respective categories are known as Polish Market Hope (companies) and Product with a Future (products and services). Each of the winner receives a symbolic eurocent for good luck. This is in line with the Polish tradition of showering newlyweds with small change. A year after the Cent for Future winners are announced, the chapter of the competition takes stock of their activities over the previous twelve months to decide which of them registered the fastest growth. The best are awarded the Golden Euro prize. The winners are as follows:

"Polish Market Hope"

- Selected by the Lower Silesian Province Chairman Marek Łapiński
